

LOUISVILLE AND CINCINNATI

SHORT LINE RAILROAD

FOR

CINCINNATI AND THE EAST

THREE DAILY LINES FOLLOWING DRAWING ROOM

COLUMBUS, OHIO, PITTSBURGH, HARRISBURG,

PHILADELPHIA,

NEW YORK,

AND OTHER EASTERN CITIES.

WITHOUT CHANGE.

The only line with passenger cars from

the South made direct connections at Louisville with

through cars for New York, arriving

One Train in Advance of all

Other Lines.

Only Thirty-two Hours.

This line is constructed and entirely free from

delays, and is the most direct and reliable

route for passengers from Louisville to New York.

From Louisville passing over the Great Iron

Railway Bridge at Cincinnati.

Tickets for Sale

"Via Louisville and the Short Line."

At all Ticket Offices in the South and Southwest.

J. M. MacLEOD, Gen. Supt.

S. S. PARKER, Gen'l Pass. and Ticket Agent.

Louisville, Kentucky.

WHEN YOU GO EAST OR WEST

TAKE THE

Ohio & Mississippi R. R.

The Peoples' Line.

THE REASON WHY.

It is 12 Hours Quicker

and 74 Miles Shorter

Than any other route between Louisville and St. Louis.

It is the ONLY Line running daily trains

between Louisville and St. Louis, and

St. Louis without detour or change of cars.

It is the only line which gives direct connections

with both morning and evening trains out of

St. Louis, for all Western States and Southern points.

For safety and certainty of connections is unequalled.

For tickets and baggage checked through at all

points en route, apply to the Ticket Agent.

B. F. HANSON, General Ticket Agent.

Reading.

If there is any one study more important than another in our schools for youth, it is that of reading—yet there are many schools where it receives but little attention, and is considered a secondary matter both by teachers and pupils. He or she who is not a good reader, is unfit to teach at all. The youthful mind is very susceptible of improvement, and can be moulded, like the plastic clay under the sculptor's hand, into nearly any desired shape. Too little attention is given to punctuation, emphasis, etc., and the child learns to read in many cases, without any regard to their significance. In some schools, however, pupils are thoroughly and properly drilled in their reading exercises—and the result is wonderful. Compare the girl or boy who has had proper training in this regard, with those who have learned to read under a skilled reader or elocutionist, and the remarks we have made will strike even those who are not good readers themselves, with force. It is a pleasure of the highest type to listen to a good reader. Like harmony in music, it pleases the ear. On the contrary, to listen to a poor reader, is like a discord in music, for it sounds harsh and unpleasant. An eminent actor once read the Lord's Prayer to a distinguished lawyer, such was the charm of his articulation and the elegance of his reading, that the lawyer remarked after the reading was finished he had never before known there was so much beauty and pathos in that simplest and sweetest of all prayers. It is the manner, frequently, as much as the matter, that gives to any production its highest charm. Then learn to read well—it will add an hundred fold to the enjoyment of yourself—and especially to those for whom and to whom you may be called upon to read.

We conversed with Mr. Anton Jones, Civil Engineer connected with the Geological Survey of Kentucky, under Prof. W. B. Shaler, State Geologist, who, with other scientific men, were stationed at Cumberland Gap the past summer; and he informed us that the party gathered thousands of specimens from the animal, vegetable and mineral kingdom, during their sojourn in the mountains. The specimens will be held before the next General Assembly of our State, and finally placed in our Public Museum. Some of them will be taken to the Centennial next year at Philadelphia, and they will show the world what almost unbounded and inexhaustible resources we have in that respect. This survey has been earnestly prosecuted, and should, as it probably will, receive further hearty support from our Legislature. Untold wealth lies hidden in millions of acres of Kentucky soil, and this survey will open it up and exhibit it like a panorama. The exhibition of the various specimens of ores, etc., found in diverse parts of our State in inexhaustible abundance and of the best quality, will bring the attention of home and foreign capitalists to our resources, and their ultimate development is assured.

JUDGE COOPER of the Kentucky Supreme Court, very strangely, decided that "if the driver of a street car sees a person on the track who is apparently capable of taking care of himself, and the person is far enough in advance to have time to get off before the train reaches him, the driver has a right to presume that he will leave the track in time to prevent being run over, and the driver (the company) will not be chargeable with negligence if he acts upon such presumption, and, contrary to the reasonable probability, the person remains on the track and is injured." If that is the law in the case, would it not apply also to the driver of a coach or other vehicle, and to the driver of a steam car? Suppose the man is walking with his back to the driver, and is deaf; would the company be held not to blame if the car, coach, or engine ran over and injured the individual, simply because the person was "apparently capable of taking care of himself, and was far enough away to get off?" The letter of the decision referred to takes that ground and lays down that doctrine as the Supreme law of this State.

"ANN ELIZA."—If the "pictures" can be believed, Ann Eliza Young, the 19th spouse of Brigham, the Prophet, is a handsome woman. She is now traveling over the country lecturing against Polygamy generally—Brigham in particular. May her pocket become plumbic and her efforts prove successful in the way of making Polygamy odious. It is worse than "slavery," and yet the Bads have but little to say against it. Perhaps a majority of them hold to the same faith that the Prophet does.

LAST week our spirits were cast down on account of the political aspect of things. They have risen again—New York has gone Democratic by nearly 20,000 majority. Wisconsin is virtually one. Virginia, Maryland, Mississippi, have each done their duty nobly.

LECTURE ASSOCIATIONS are becoming "quite the rage" in our towns and villages over the River. Lexington, Paris, etc., have them, and they are visiting noted lecturers to visit them during the winter season. "Josh Billings," a man of talent, who has said and written many clever things, lectured in Paris and Lexington recently. These Associations are of great benefit to the intelligent portion of the public, and do much to furnish enjoyable, profitable and innocent amusement to the people. We wish there was enterprise enough in our citizens to stir them up to the formation of such a Society. One good Lecture is better than all the comic shows, circuses and theatres in the world.

DISASTERS AT SEA.—Over 200, instead of 100 lives were lost from the Ship Pacific, many of whom were women. The Steam-Ship City of Waco, was also lost off Galveston Bar the other day, but it is said that the crew and passengers, about 50 in number—got safely off into boats and were seen going in a westerly course. The brig Palo-Alto, was also wrecked, and a few of her passengers arrived at New York last Tuesday. An iron vessel was found sunk off the coast of Cuba recently, with dead bodies upon it. It is further reported that several vessels have been lost, with all on board, during the late terrible hurricane which fairly swept the seas.

H. V. REDFIELD, the regular southern correspondent of the Cincinnati Commercial, writing from Jackson, Miss., to that paper, says the recent election in that State was as peaceful as any he ever saw, and as properly conducted. He writes that the State is thoroughly and finally redeemed from Radical carpet-bag misrule, and as a consequence property has advanced in value 25 per cent.; that the new Legislature, with a majority of 70 on joint ballot, will cut down taxation 30 per cent., and reduce the expenditures 500 per cent. He says the people are jubilant as they have a right to be.

THE careless, not to say reckless habit of poking your head, arms, or legs out of car windows while the train is moving, was rendered sadly manifest near Louisville last Sunday, a young man on the narrow gauge road to Harrods creek put his head out the car window and it was struck by a tree which stood near the track and so fractured his skull as to render him insensible, in which condition he still lingers, and it is thought will cause his death. This sad lesson will not deter careless people from doing the same thing.

We received a copy of a Virginia paper, giving the full details of the ceremonies on the occasion of the unveiling of the statue of the immortal Stonewall Jackson. We should like to have the space to lay before our readers some of the extracts from the speeches, etc., delivered on the occasion. Jackson endeared himself not only to the people of his native State, but to all persons everywhere who admire civil and military genius and Christian virtue.

MISSISSIPPI rejoiceth with exceeding great joy. The reign of the carpet-bagger there is over and gone, and the time for rejoicing in the Democratic camps has come, the voice of the patriot is heard in that land. From 20,000 Radical majority they have been redeemed, and a Democratic majority of 20,000 has resulted from the combined efforts of true men of all parties and colors.

OBJECTS.—There are some men who will, for contrariness if nothing else, object to anything. A Rev. Chadwick, of New York, wrote a long and violent letter to the Sun, objecting to Moody and Sankey's revival. But when one remembers that even Christ was rejected by his own people, and objected to by a disciple, one can't wonder that mere mortals could please everybody.

SOME of our Democratic exchanges have begun to figure on the coming Presidential electoral vote, and all of them succeed in electing a Democrat by a majority of 15 to 26 electoral votes, after counting out the States which went Radical at the recent elections, and which, while, doubtless, under a proper National platform, again fall into line and join our conquering columns.

THE Scottsville Argus says that on taking up the corpse of a woman who had died there sometime before, for interment at another place, it was found that she had turned over on her left side, thus indicating that she had been buried alive, while in a seeming state of death, and awoke after burial, struggled to escape from her grave and turned up on her side.

FOUNDER.—The ship Pacific foundered off the coast of Washington Territory the other day, and over 100 lives were lost. Only one man survived the wreck, and he was picked up two days after, floating on a part of the pilot house, where he had been without food or drink for over fifty hours. The loss in money was over \$150,000.

JOYCE, the convicted felon at St. Louis, says—"All the lying correspondents this side of perdition can't make him weaken; that the ass will bray when the lion is down, and that worms can crawl over wounded gladiators." Not bad for a felon, such a sentiment.

THE pride of Cincinnati is her fountain. The glory of St. Louis is her iron and steel bridge. The boast of Louisville is her Broadway street lined with palatial residences. The chief delight of Chicago is that she had the largest fire in the world and built up the waste places in less than three years. Brooklyn boasts the great scandal of this or any other age.

NEXT year, the voters of the Appellate Court District, which embraces this and several adjacent counties, will be called upon to select a Judge for the term of eight years. So far, we have heard no one spoken of as a probable candidate for this high and very important position, but there is time yet to bring out the best legal talent in the District.

VICE PRESIDENT WILSON, according to our latest advices, is very ill. In fact, it is said that he may not recover, and, such is the fear manifested in his case, that attendants are with him all the time, in order to aid him in any way they can, and report his condition from time to time to those who are the most interested.

An exchange says that one of its subscribers, a lady, stopped her paper in disgust, because the editor did not tell all about her daughter's wedding, but gave the full account of another woman's daughter's wedding. The poor creature did not know that the latter notice was paid for at "twenty cents a line."

THE Courier-Journal complains that some of its exchanges come to the office in a blurred condition. Other papers could make a similar complaint. None but perfect copies should be sent to exchanges, and the "blurred" ones, as suggested by the Courier-Journal, should be sent to non-paying subscribers.

BANK STOCK.—About \$28,000 were paid out for Bank Stock at Lexington the other day. Stock sold as high as \$135 25 per share, and none for less than \$122 25. This proves two things—first that money is abundant with rich folks over there—and that banks are profitable institutions to stock-holders.

A CITIZEN of the Republic of Ecuador, late a minister of that country to our own, and who is now a prominent candidate for the Presidency of that little realm, was recently married to an American beauty, and they sailed for their Southern home last week.

THE Crown Prince of the German Empire, son of Kaiser Wilhelm, will visit the United States next year, and be present at our Centennial. Of course our Jenkins and other Soaks, will treat him like they did Alexis—and thus show their canine qualities.

GENERAL GRANT sat for an hour and a half the other night, listening to the Post, Joaquin Miller, as he delivered a lecture in Washington. The President had a free ticket. Miller gave the politicians and office-holders fits.

Our present reporter of the decisions of the Court of Appeals of Kentucky, has put out his tenth volume. It seems to us that this is multiplying our legal reports a little too rapidly. They cost six dollars a volume.

It is said that the people of Johnson county spend \$31,500 per year for coffee, and only \$1,500 for schools. How much do they spend for liquor? That's the question!

ALTHOUGH the time for the assembling of our Legislature is so near at hand, but little is said of the member who is to be chosen Speaker of the Lower House.

The past summer, according to the report of scientific men, was the coolest by several degrees, that has been in this country for the last eighty years.

As was expected, the wet summer of 1875, is followed by a very dry fall. The coming winter, it is thought, will be wet and very disagreeable.

Two Brooklyn clergymen resigned their ministerial charges recently. Dr. Storrs, a noted divine was one of them.

THOS. ROWLAND, the jailor of Madison county, committed suicide the other day. No reason assigned for the deed.

It is said that figures don't lie. That may be true, but it depends altogether upon who makes the figures.

THANKSGIVING.

Proclamation by the Governor of Kentucky.
The many blessings enjoyed by us as a people, during the year now drawing to a close, should fill our hearts with humble thankfulness to Almighty God for the great benefits bestowed upon us.
Free Government has been continued to be vouchsafed to us. Plentiful harvests have crowned the labor of husbandmen, and every department of industry has had its compensating reward.
The Communion wealth has been free from pestilence or civil commotion, and peace and prosperity have smiled throughout our borders.
Our educational, benevolent and religious associations have increased, and are daily becoming more active agencies of an enlightened and advancing civilization, and fraternity and friendship are rapidly effecting throughout the whole country the peace and good-will of the past.

In recognition of these blessings, it is proper that we should dedicate one day to thanksgiving and prayer, so that we may enter upon the new year with a true conception of our obligations, and more devout obedience to the will of the Ruler of the Universe.

Wherefore, I, James R. McCreary, Governor of the Commonwealth of Kentucky, do designate and appoint Thursday, the 25th of November, 1875, as a day of thanksgiving and praise, and request the people of Kentucky to cease all secular business on that day, and assemble with harmony and charity, one with another, in their houses of public worship, and in family circles, and devoutly engage in such religious solemnities as shall properly express their gratitude for the blessings of the past year, and their earnest hope for the continuance of Divine favor.

In witness thereof, I have hereunto set my hand, and caused the Great Seal of State to be affixed. Done at the city of Frankfort, November 6th, eighteen hundred and seventy-five, and in the eighty-fourth year of the Commonwealth.

JAS. R. MCCREARY,
Governor.
J. STODDARD JOHNSON,
Secretary of State.

By THOS. S. BROWN, Atty. Gen.
"After Heavy Drains."

The following strange incident may serve to gratify some of your readers' curiosity. About sixty-two years ago a man by the name of Thomas Williams came from Virginia to Lincoln county, and stopped at the house of a Mr. Steiner, who lived near Gilberts Creek Station. It is said that Williams was not a man of much sense, and that was true as the following will prove. About a year after he had been in the country he whittled his razor often. One day after dark he left the house, and being out some time, came one went out to see what had become of him, and found him lying under a tree and found him lying under it with his throat cut, and in an insensible condition. He died the next day. Mrs. Steiner believed that any one who committed suicide should be "buried across the nearest water course, or their spirits would return and haunt the place where the deed was done."

To gratify her suggestion he was buried beyond Gilberts Creek, about fifty yards from the bank. Time passed on and the facts were nearly forgotten. Last July, after a high tide in the creek the feet and legs of the skeleton were exposed. The year before a King-Fisher had made a nest and reared a brood of young in a hole at the foot of this grave. Alexander Traylor, John Traylor, and Martin Holzman made a box, disintered the remains and re-buried them in a graveyard. The clay was settled firmly upon the bones. A small part of the clothing was on the bones and one large brass button attached to the coat. The nails of his first coffin were certainly made at a blacksmith shop, as they were of wrought iron. The circumstances of his death are gathered from old uncle Ben Holzman who told your correspondent that he, in company with Conrad Duddar, or Bill Duddar, and several others passed by the house the morning after the death, they having started to join the Kentucky troops who were en route to join General Jackson's army at New Orleans, which was sixty-two years ago, or a little over.

If the above singular statement of facts is worthy of a place in your interesting paper, you will know what disposition to make of it. Truly yours, A. T. GILBERT'S CREEK, Nov. 9, 1875.

NEW ADVERTISEMENTS.

SMALL FARM FOR SALE!

I offer for sale my excellent small farm, 1 mile south of Stanford on very reasonable terms. It is a good new dwelling, and is well watered and timbered, and a desirable place. Address at Louisville, Ky. G. F. FRACOCK.

NOTICE.

LOCAL NOTICES.

A splendid quality of Corsets for 50 cents, at the New York Store.

Customers' Delivered. Suits only 80 cents, at the New York Store.

We've got them now. Fine ladies' Vests only 25 cents, at the New York Store.

Wardens & McAlister have 50 barrels of Ulen 12 for sale. Price \$1.50 per barrel.

Wardens & McAlister have 50 barrels of Ulen 12 for sale. Price \$1.50 per barrel.

The New York Store has just received a beautiful fitting, Box-Toe Shoes, custom-made, only \$2.

Misses' and Women's desire to buy a large number of Draped Turkeys for which the highest market price will be paid.

MATHEW & MARSHALL have just received a large stock of Building, Paints and Oil, and are prepared to make them up in the best of style.

Do you want a good fitting suit of clothes made in the latest style, and out of the best material, with right up to Mathew & Marshall's Tailoring establishment, north side Main street.

If you want a nice suit made to order, the best place to go is J. W. Winter & Co., Louisville. They have the largest variety to select from—always give a good fit at fair prices.

READY-MADE CLOTHING.—You will find the best and cheapest at the Great Clothing House of J. Winter & Co., corner 3d and Market, Louisville, and being of their own manufacture—very reliable.

ADULT FLOWER.—The most miserable beings in the world are those suffering from Erysipela and Liver Complaint. Many of these people are afflicted with these two diseases and their effects, such as Scurvy, Rheumatism, Headache, Urinary Disorders, Palpitation of the Heart, Heartburn, Water-brush, graying and burning of the hair, and the most distressing of all, the mouth, coming up of food after eating, low spirits, etc. Go to the Drug Store of Bohn & Stagg, and get a 75 cent bottle, or a sample bottle for 10 cents. Try it—Two doses will relieve you.

HOME NOTICES.

"But court" came off at Crab Orchard last Saturday. The docket was rather slim, however.

Now is a good time to prepare our streets so they will be ready to go into winter quarters.

Sam Brown.—For sale, five Longhorn steers, complete. Price \$1.50 each. Apply at this office.

We know that one of the Watsons, who was cut by Walker at Richmond, the other day, will probably die.

For a nice old carpet, of elegant design, call at Hayden Brothers. They will suit and charm the most fastidious.

DANVILLE will be lighted with gas Christmas Eve. It is proposed to have a grand illumination on that night.

Rev. G. O. BARNES has been on his regular monthly visit to Chicago, on Friday last. He will return in about ten days.

The repairs done on the Christian church at Stanford recently, and considerably to the comfort of those who attend service there.

The ladies are especially invited to call and examine the stock of brown, lead and black corsets, received this week at Hayden Brothers.

These handsome, solid and mixed gent's men's suits at Hayden Brothers are the finest as they are likewise the best and cheapest in town.

A more varied and elegant line of Ladies' and Misses' Winter wrappings cannot be found in any town, than those just opened at Hayden Brothers.

HAYDEN Brothers have always on sale the most extensive stock of furniture to be found outside the large cities, and their prices are low enough to suit any one.

A CITIZEN of this county left his wife and started with another woman for a home in the far South, the other day. Evil, and only evil, can follow them all the days of their lives.

It is said that an orange grove of ten acres, in Florida, ten years old, will give an income of \$5,000 per year. Let's all go to Florida and plant a grove! "There's millions in it."

We were shown a hard flint hammer of a chestnut color, which was taken from an Indian mound in this county, and which was doubtless used by the savages for beating up their grain or nuts of some kind for food.

A PROTRACTED meeting has been in progress here since last Monday night, in the Baptist church. The pastor, Rev. V. E. Kirtley, being aided by Rev. Mr. Baker. The meetings are well attended at night.

ONLY one man, so far as we know, has turned to be a Radical in this county, since the Ohio election, and he was a quasi-Democrat any way; hence his loss to the old and true party is not much. Farewell, brother "donator."

HAYDEN Brothers fairly spread themselves last Monday, and their store was crowded all day. In fact, it has been pretty well filled with customers all the week, and they generally come out with their arms and pockets full.

The Wayne Circuit Court will close its Fall term to-morrow. From several lawyers who were in attendance, we learn that but little business was finished, although the Judge was busy all of the twelve judicial days allotted to him.

FIVE HILL, and other Rockcastle coal sells in Louisville for 12 cents per bushel, delivered at the cellar door. The same coal sells here, only 35 cents from the mine, at 15 cents per bushel. Who can solve the riddle? When the C. & E. R. R. shall get to Cumberland river it can be bought for 12 cents.

Dinner.—Five or six of our citizens left here last Monday for a ten-weeks' deer hunt in the far edge of Laurel and Whitlow counties, where the deer-hunted deer and hazy-headed bucks are said to be abundant—owing to the fact that the blasting along the C. & E. R. R. has scared them far away from the line of the road.

A THREE county court day was rarely, if ever, seen in Stanford, then on Monday last. Fewer cattle were on the market, and lower prices obtained than for many months past. All kinds of stock were at the lowest prices except hogs, which, owing to the scarcity of that kind, ruled at pretty high figures, and the demand is beyond the supply by great odds.

Jim Ed. BAKER, the heavy man, whom all our own and many foreign citizens know, is still at his post of duty, and is doing a thriving business, as he deserves to do, because he treats the traveling public right. He keeps his vehicles clean, and his horses fat and in good health. Just try one of his turnouts and see if all we have said is not true.

PAUL M. D. HUGHES, the efficient teacher of the Stanford district school, has been afflicted with rheumatism for several days; so much so, in fact, that he has been unable to attend to his duties. His place is, however, worthily and ably filled by Mr. Wallace E. Varner, a young man of fine intelligence, and there has been no cessation of the school exercise.

To the credit of the employees and managers generally, of Knoxville Branch of the Louisville & Nashville railroad, be it said, that no serious accident has ever occurred on the branch, although half of the way has been worked for over twenty years, and the balance about ten years. This, too, when the time on the route has averaged twenty miles per running hour.

We learn that three of the prisoners who escaped from the Pulaski jail, recently, have been captured and returned to "duaneville." Of this body we are not fully advised, but hope it is true, as all malefactors should receive such punishment as their offenses merit. Some of them are said to be bad men, and they should be taught in the school of experience to cease their infamous conduct.

VENISON.—A wagon passed through town last Tuesday, loaded with venison hams and "saddles" from East Tennessee, on the road to the Louisville market. It is said to be a good one, and it is said that a pound of venison is worth a cent more than a pound of beef.

VENISON.—A wagon passed through town last Tuesday, loaded with venison hams and "saddles" from East Tennessee, on the road to the Louisville market. It is said to be a good one, and it is said that a pound of venison is worth a cent more than a pound of beef.

STANFORD FARMER COLLEGE.—The present scholastic year of this school opened with promise of great success. Last year the building was crowded, and the necessity of enlarging was evident. At the close of the Commencement Exercises, in June, Judge Bauley presented the facts to the citizens, many of whom responded promptly and nobly. Steps were immediately taken for making the necessary additions, but the long continued rains prevented the completion of the work until quite recently. These additions add greatly to the comfort and convenience of the board, and give room for others. Nearly one hundred people are in attendance, thirty-four being boarders in the College. The prospects of the school have never been more flattering. The Stanford Female College will, no doubt, become the instrument of great good, not only to Kentucky, but to other States, whose daughters are being educated here. Additions, also, have been made to the apparatus this year; so that the school furniture is nearly complete. Charts, maps, globes, plates, etc., are all new and of excellent quality.

THE OLD ELK.—One hundred years ago next May, the first sermon preached in Kentucky by a minister, was delivered near Harrodsburg, under an Elm tree, by the Rev. Mr. Hinchman of the Baptist Church, assisted by the Rev. Mr. Taylor, of the same denomination. At that early day there were only about one hundred inhabitants in the State, and of this number between thirty and forty of them were Baptists. It was necessary to place out-post guards to watch the congregation of the savages, should any of them be around, as they were thick and hostile to the pale ones. That was serving the Lord under difficulties. The stump of the Elm tree is still standing, and it has been suggested that it be taken up and exhibited at the Baptist Centennial which will be held in Louisville next May, and to erect a rough monument in the spot where it stood. The idea is a good one. The Baptist now number 140,000 in this State, which is greater than all others combined or nearly so. They are making great efforts to build a Theological Seminary at Louisville, and will doubtless succeed. This denomination is in a very flourishing condition all over the civilized world.

GARRARD COUNTY NEWS.

LANCASTER.

Mr. JOHN DENLEY, son of Hon. G. W. Dunlap, is lying very low at his father's house. It is not expected that he will recover.

JUDGE DENNY returned yesterday from Wayne county, where he has been attending to his official duties. Judge Owens is still there.

Mr. W. D. HOFFER left this week for Terre Haute, Ind., to attend to some legal business there.

This young man of the Lancaster "Hog Club" opened the season with an impressive hop at the Miller House, last Monday night. It was a surprise to all, as it was only about an hour from the time it was first mentioned until the dance commenced.

Our Police Court is at present in full blast, and has been since Saturday. About the latter part of June, they were seized with a wave of stolen from the cars at the depot, and since then, a good deal of stealing has been going on here. The depot has been entered and goods taken from it. Mr. John Miller's warehouse has been entered and a barrel of whiskey taken from it. About a week ago, Mr. Gallagher, an employee of the railroad, came here to try to find out the parties who were doing the stealing, and with the assistance of Mr. John (Tyro) Miller and Mr. W. G. Ray, the R. R. agent here, they were again rewarded. Last Thursday night, about twelve o'clock, while they were searching, they saw a man come to Mr. Tyro's grocery door, unlock it and go in—two other parties standing on the outside. The attack was made on them. The man in the store, Geo. Cochran, was captured—one of the men who was on the outside escaped. The other one who was proved to be a negro detective from Nashville who had been here about two weeks in the interest of the R. R., and who was the principle means of the discovery, was, of course, taken. Friday and Saturday the two were some fourteen or fifteen other parties arrested and put in jail, all colored, and all charged with being implicated in the stealing that has been going on here since Summer. There have been about five or six of them tried, and each one been held over in bond of from \$100 to \$700 to appear at the next term of the Garrard Circuit Court, to answer the charge of grand larceny. Nath Adams has turned State's evidence, and is shown as a standing witness in every case, and from his pretended knowledge of the whole thing, most undoubtedly, have been the guilty of them all.

CAREY COUNTY NEWS.

Middleburg.

RELIGIOUS NEWS.—The laborious workers of this place of Zion, the Rev. J. H. McPherson, of Turnersville, are now conducting a protracted meeting at Smiths School House, on the C. & E. R. R., with fair prospects for doing much good.

It is very common at country school-houses, where Sunday schools and singing societies are conducted, to see good looking, decently dressed young men whittling the backs of benches and carving their rude autographs on the desks. Now, no matter how plain school furniture may be, to civil, sensible people, this looks like vandalism; and it is unmistakably a mark of veridancy. Large puddles of tobacco juice here and there on the floor don't look much better.
